

# Now, get a valuable reward for your support.

If you itemize your tax returns, here's an easy way for you to slash your tax bill this year, and help our organization at the same time.

You may not realize it, but we are part of the Oregon IDA (Individual Development Accounts) Initiative, which helps low-income Oregonians get back into the economic mainstream.

Thanks to generous friends like you, we are making that goal a reality for IDA participants throughout our community.

**Now we'd like to reward you by offering you a 75% tax credit through Neighborhood Partnerships, one of our biggest financial supporters.**

75% of whatever you donate to them between now and the end of the year will come back to you as a credit that you can subtract from your state tax bill. That's like paying only \$25 to give \$100.

Plus, a big part of what you give to Neighborhood Partnerships will come back to us. So you'll be helping our organization even more than usual.

**Find out more NOW by visiting <http://ida.neighborhoodpartnerships.org>**
